

## State of Economy-VI: Booster investment dosage needed to fire-up slacking consumption

By Rohit Vaid

**Mumbai,** A booster dose of government and private sector spending along with cheaper rates of finance are required to kick-start India's consumption driven demand, industry observers opined.

To put it simply, the overall economic growth is expected to decline on the back of slacking consumption due to farm distress, global headwinds and stagnant wages. These have cumulatively hampered sales, thereby restricting production and as a result stalled

job creation.

Furthermore, the slowdown has become evident in sectors such as automobile, FMCG and aviation.

"Consumption in India has slowed due to several factors, including low rural demand reflected in low prices that is a by-product of low rural wage growth and significantly low level of global food prices for a protracted period keeping a lid on MSP," said Soumya Kanti Ghosh, Group Chief Economic Adviser, SBI.

"Besides, private investments are not forthcoming, so public investment should

continue to keep pace, which looks difficult given the current fiscal constraints. Therefore, monetary policy should do heavy lifting as fiscal policy is constrained."

Latest economic indicators, including Index of Eight Core Industries, Index of Industrial Production and inflation gauges have shown a worsening trend which industry observers fear will continue. A case in point is the automobile off-take data. In April, car sales which indicate urban and semi-urban demand declined 19.3 per cent to 160,279 units. In the commercial ve-

hicle segment, which is the key indicator of economic activity, domestic sales went down by 5.98 per cent to 68,680 units last month.

Similarly, overall sales of two-wheelers, which include scooters, motorcycles and mopeds, edged lower by 16.36 per cent to 1,638,388 units.

Consequently, the country's factory output has also slipped. In March, it declined to over a 20-month low, as the output rate of the manufacturing sector fell (-) 0.4 per cent from a year-on-year (YoY) rise of 5.7 per cent. Recently, State Bank of India's Economic Research Department in a report said: "In Q4FY19, of 384 companies more than 330 companies exhibited negative growth in mid-line and bottom-line." "Perhaps, significantly depressed rural prices is disturbing rural income and weak demand is affecting the FMCG sector."
