New Delhi,

Apple smart speaker HomePod is now available in India for Rs 19,900 which is actually cheaper than the \$299 price in the US.

HomePod was first launched in the US, the UK and Australia in January last year and then went on sale in several countries, before coming to India.

"HomePod combines custom Apple-engineered audio technology and advanced software to deliver precision sound that fills the room. At less than 18 centimetres tall, HomePod fits anywhere in your home," said Apple.
